## Featured Product

## Customized NCR Forms

One of our specialties here at Leech Printing is providing everyday tools to help business run more smoothly and efficiently. A great example is our NCR business forms.

NCR (no carbon required) forms allow you to make up to 6 copies of your handwritten forms with no carbon paper and no fuss. Simply write on the top copy and separate the sheets for distribution - great for invoices, delivery slips, receipts, order forms and any other application where immediate multiple copies are required.

For more information on our great selection of business forms, contact your sales representative today!

*Choosing a paper type for your print job can be a daunting task. There are hundreds of colour, weight and style options to choose from, and they all bring different characteristics to your printed piece. Here are some of our most common.*

### Coated papers

Available in gloss or matte finishes, coated papers are used for printing full colour leaflets and brochures. They give excellent "lift" to images and solid colours. Gloss papers tend to be used for leaflets and flyers whereas mattes tend to be used for prestige brochures and reports. Coated papers are typically available in white, cream and ivory colours.

### Stationery Papers

These are usually used for printing letterhead, compliments slips, and invitations. They are available in 'Wove', 'Laid' and other textures, and with many finishes - speckles, parchments, and most common pastel colours.

### Uncoated or Bond

The most common papers, used for nearly all types of business printing including single and two-colour booklets, leaflets and business forms. Often used for programs, instruction manuals and application forms, they are available in white and an almost unlimited array of colours.

### Carbonless Papers

Carbonless papers are used for producing multi-part business forms where copies of the completed document need to be circulated to different departments. They are called carbonless because they don't need to have a carbon paper inserted between each leaf to create a copy of the original. They are mainly used for producing hand-written order pads, invoices, delivery slips and receipts.

### Digital Printing Papers

These are specially formulated "dust free" papers which are designed for use with digital printing machines. They have an appearance of silk or gloss art, and generally have a very smooth finish.

### Creative Papers

When you want to really stand out or create a different look, there are a number of different types of textured and coloured papers and boards. Some of these will accept four colour process printing and images very well, whilst others are only suitable for printing in spot colours. Available in a wide range of colours and finishes.

## Valentine's Day Factoids

73% of people who buy flowers for Valentine's Day are men, while only 27 percent are women.

About 1 billion Valentine's Day cards are exchanged each year. That's the largest seasonal card-sending occasion of the year, next to Christmas.

About 3% of pet owners will give Valentine's Day gifts to their pets.

## Donors at Leech Printing Exceed Their Pledge

Donors are the heart of our blood supply system, the lifeline to hundreds of thousands of Canadians who, each year, need blood, blood products or stem cells. Without generous and committed donors like us, there would be no blood system in Canada.

Canada's blood system is founded on the principle of gratuity. Just as recipients do not pay for the blood products they receive, donors are not paid for the blood or plasma they give.

There has been 256 donations since Leech Printing employees became involved with *Partners for Life*. There are presently 6 active donors: Lutz Mattfeld, Don Wells, Brian Klein, Wayne Evans, Shane and Lorna Maximchuk. Our annual pledge is to achieve 25 donations. In 2008 we exceeded our pledge with 32 donations. We are proud of our involvement and hope that our donations help to inspire you to also give.

Leech Printing donors Lutz Mattfeld, Shane Maximchuk, Brian Klein and Don Wells pose with a plaque presented to them at a "Partners for Life" Luncheon.
