Featured Product

Printed Mesh Under-Ice Graphics

If you or your organization are looking for an easy and cost-effective way to create in-ice lettering, lines or markings or sponsorship logos in curling or hockey ice, look no further than Leech Printing.

We'll print your graphics on our perforated mesh – manufactured especially for under-ice applications. Simply lay down the graphic where you want it, and flood as usual. No more hand painting! The best part? Our ice-mesh graphics are completely reusable. simply hang to dry, and store rolled until you need them again!

Announcement

Leech Printing now FSC Certified

Forests provide us with clean water, fresh air, and help combat global warming. They also provide food, medicine and important natural resources, such as timber and paper. If managed responsibly, forests and plantations benefit forest people and the global community.

However, in some countries as much as 80% of the timber is harvested illegally. This often involves violation of human rights and felling of protected forests.

It is for these reasons that Leech Printing has recently completed the necessary steps to become FSC (Forest Stewardship Council) Certified. Being FSC certified ensures that Leech Printing complies with the highest social and environmental standards on the market. As public concern about the state of the world's forests and timber resources increases, FSC certification is a major step in solving complex environmental and social issues.

Management and staff of Leech Printing are extremely proud to have completed this certification process, being among just a few companies to be FSC certified in Manitoba.

FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Products carrying the FSC label are independently certified

to assure consumers that they come from forests that are managed to meet the social, economic and ecological needs of present and future generations.

To find out more about FSC certified printing, talk to one of our experienced Sales Representatives today, or call Leech Printing at 1-888-756-4433.

To find out more about FSC, visit their website at www.fsc.org

Make a Bolder Statement with Big Graphics
Large format printing makes it possible!

Displaying large signs or graphics is a time tested and proven effective way to draw attention to your company, product or service. The old adage "a picture is worth a thousand words" applies especially in the case of signage, because nothing catches a customer's eye faster than a large, colourful photo or graphic.

In the past, most large format signs, banners and images had to be made by hand in one form or another - usually via hand painting, screen printing, or tiling (the process of making one large image out of many smaller 'tiled' images). Prices were suitably high to cover the high cost associated with these labour-intensive methods. Until very recently, the cost of producing something as simple as a large full-colour photo reproduction was prohibitive to most small business.

Luckily, the digital revolution has changed the face of large format graphics, and businesses of all sizes are enjoying the rewards - lower cost, faster production and superior quality.

Leech Printing offers many large format products, including:

Indoor/Outdoor Rigid Signs
No longer limited to simple text and clipart, your company's interior and exterior signage may incorporate photographs and other full colour illustrations. From huge building-mounted signs to relatively smaller sidewalk or election-style models, there is virtually no limit on how creative you can be.

Banners and Tradeshow Displays
For portability, we print on a variety of flexible media such as canvas, plastic and mylar. For portable tradeshow graphics, we also offer a wide range of banner stands and display systems to suit any budget.

Adhesive Window and Wall graphics
Leech Printing can produce your graphic, photo or logo on a variety of self adhesive materials for placement on vehicles, windows, walls or floors.

Specialty Items
Do you have a large photo, newspaper reprint, or company mission statement that you'd like to display proudly? See us about our many finishing options such as plaque mounting to give your item a finished, artful look.
